Kya Kehna movie download in hindi 720p hd movie Kya Kehna is a nice and clean family drama that really did not need this sort of music. There were more than enough songs in the movie to fit the mood of the movie. Indian film music for this movie is dominated by Akshay and Sonu Nigam similar to Kajraare and it doesn't really work in this context. All that singing was a waste of time and never did it fit into the story or dialogue or character development.
